

Emtree Terms Added and Changed (November 2025)

This is an overview of new terms added and changes made in the third Emtree release in 2025.

Overall, Emtree has grown by 81 preferred terms (51 drug terms and 30 non-drug terms) compared with the previous version released in May 2025. In total Emtree now counts 103214 preferred terms.

Because the terms added include replacements for existing preferred terms (which become synonyms of the new terms) as well as completely new concepts, the number of terms added exceeds the net growth in Emtree. Other changes could include the merging of two or more existing preferred terms into a single concept.

The terms added and changed are summarized below and specified in detail on the following pages.
