1. Do one of the following:
   - If you are not connected to your institution’s network IP, click the following link and continue to step 2.
     https://app.immunoquery.com
   - If you are connected to your institution’s network IP, click the following link and continue to step 3.
     https://app.immunoquery.com/redeem

2. Select Redeem a Registration ID on the right.

3. Enter the assigned Registration ID and Password, and click Submit.
   The Sign In – Register new profile page displays.

   • If you have an account for another Elsevier product, continue to step 4.
   • If you do not have an account for another Elsevier product, skip to step 5.

4. Enter your Username and Password, and click Sign In.
   The Home page displays, with the user logged into the system. The new application is now associated with your existing login.
5. Click the **Register new profile** link.
   The Register page opens.

6. Enter the **First** and **Family (last) Name, Email Address,** and **Password.**

7. Verify the information is correct as the email address serves as your username.

8. Select the **Additional profile details** link to display and complete additional (optional) fields.

9. Enable the **Registered User Agreement** checkbox, and click **Submit.**
   There will be a pause while the system creates the profile. When finished, you will be logged in with your new credentials and taken to the ImmunoQuery home page.

---

You now have an Elsevier login. You can use this login to register any other Elsevier applications to which you have access.
