ImmunoQuery Migration Workflow
Overview

Elsevier is currently in the process of migrating many of its digital solutions, including ImmunoQuery, onto a single platform. This change will allow you to view all your subscriptions and manage account information (saved searches, bookmarks, etc) with a single username and password.

For customers who use multiple Elsevier products, you will no longer need to create or manage separate accounts. There will be no changes to how the application looks or functions. However, you will use a single Elsevier login for ExpertPath. This document walks you through how to migrate to the new system. There are two separate procedures in this document:

- Migrating if you do not currently have Elsevier credentials.
- Migrating if you currently have Elsevier credentials.

Regardless of which procedure you use, when finished you will have a single Elsevier username/password with which to access all Elsevier applications your facility has purchased.
# Procedures

## Migrating if you do not currently have Elsevier credentials

This process will link ImmunoQuery to your new Elsevier credentials, leaving you with a single login/password for your Elsevier products.

1. Open the ImmunoQuery login page ([https://app.ImmunoQuery.com/](https://app.ImmunoQuery.com/)).
   Do not log in.

2. Click the **Here** migration link at the top of the page.
Migrating if you do not currently have Elsevier credentials

3. Enter your ImmunoQuery credentials. Select the No radio button to indicate that you do not have an Elsevier profile, and click Submit.

   🚫 Note: If you are having difficulties logging in, use the Forgot username or password? link.

   ![Image of login screen]

   The Profile screen displays. Required fields are marked with an asterisk (*).

4. Enter your first and last name.

5. Enter your Email Address.

   🚫 Note: This address will be your Elsevier Username.

6. Create an Elsevier Password.

   🚫 Note: Hover over the “?” icon to display password requirements.

7. Select Additional profile details to enter additional info, such as Department or Phone Number.

8. Enable the Registered User Agreement checkbox.

9. Press Submit when done.

<tbody>
<tr>
<td>A confirmation message displays.</td>
</tr>
<tr>
<td>10. Select <strong>Continue</strong> to return to the ImmunoQuery login screen.</td>
</tr>
</tbody>
</table>

**Congratulations!**
You have successfully migrated your user profile. Please continue to use the login credentials associated with email address migrazione.migration.user@elsevier.com.

[Continue >]

11. Log in with your new Elsevier credentials.

**Note:** Do not use your old ImmunoQuery login.
### Migrating if you currently have Elsevier credentials

This process will link your Elsevier credentials with your ImmunoQuery credentials. Once completed, you will access the ImmunoQuery application using only your Elsevier credentials.

2. Click the **Here** migration link at the top of the page. The migration page ([https://app.ImmunoQuery.com/migrate](https://app.ImmunoQuery.com/migrate)) displays.
3. Enter your ImmunoQuery credentials. Then, select the Yes radio button to indicate that you have an Elsevier profile.

**Note:** If you are having difficulties logging in, use the Forgot username or password? link.

4. Enter your Elsevier credentials in the fields displayed and click Submit.
### Migrating if you currently have Elsevier credentials

A confirmation message displays.

5. Select **Continue** to return to the ImmunoQuery login screen.
