

## **Emtree Terms Added and Changed (January 2013)**

This is an overview of new terms added and changes made in the first Emtree release in 2013.

Overall, Emtree has grown by 1,025 preferred terms (141 drug terms and 884 non-drug terms, including 513 new terms for medical devices) compared with the previous version released in September 2012. In total Emtree now counts 64,594 preferred terms.

Because the terms added include replacements for existing preferred terms (which become synonyms of the new terms) as well as completely new concepts, the number of terms added exceeds the net growth in Emtree. Other changes include the merging of two or more existing preferred terms into a single concept.

The terms added and changed are summarized below and specified in detail on the following pages.

### **Emtree Terms Added in January 2013**

1,057 new terms (including 30 replacement terms) have been added to Emtree as preferred terms in version January 2013 (compared to September 2012):

- 161 drug terms (terms assigned to the Chemicals and Drugs facet).
- 896 non-drug terms (terms not assigned as Chemicals and Drugs).

These terms are listed as *Terms Added* on the following pages. Note that many of these terms will have been indexed prior to 2013 (typically as candidate terms), sometimes for several years, before they were added to Emtree.

### **Emtree Terms Changed in January 2013**

32 terms (20 drug terms and 12 non-drug terms) from Emtree September 2012 have been replaced by 30 different terms in January 2013. Of these, 11 are new (e.g. new generic names for drug chemical names) and have been assigned creation date 2013; the remaining 19 replacement terms (12 drug and 7 non-drug terms) were already present in Emtree.

No drug terms were replaced by a non-drug term, and no non-drug terms were replaced by a drug term.

Changes are presented in alphabetical order of the *new* terms.

### **Medical Devices**

The expansion of the *devices* of Emtree (with *medical device* as a key subfacet) branch has continued in this release, with 513 new preferred terms.
