Click on “My tools” at the top of any PharmaPendium page
Select Recent Searches or Saved Searches

Quick search

Find adverse effect/toxicity data across preclinical, clinical, post-market reports, and more

Pharmacokinetic Data  Metabolizing Enz. & Trans. Data  Drug Safety Data  FAERS Data
Chemistry Search  Efficacy Data  Activity Data  DDI risk calculator
Recent and saved searches are available for all of PharmaPendium*

* Recent searches are not currently available for the new FAERS Summary Table
How to Login

1. Click on ‘IP-authorized’
2. Click ‘Logout’ to make the ‘Login’ screen appear (next slide)
Log in to see recent or saved searches. Enter your login credentials or register to create login credentials.

If you are not logged in, recent searches will be lost after four hours of inactivity or when the browser is closed. **Note:** Recent searches can only be viewed on your own computer/browser.

* Products supported: ScienceDirect, Scopus, Brain Navigator, Scival Funding, Scival Strata, Scival Spotlight, Clinical Key, Geofacets, Reaxys, Target Insights, PharmaPendium, Pathway Studio, Engineering Village and Elsevier Biofuel

**NOTE:** If you already have a username/password to another Elsevier product*, you can use your existing credentials and do not need to register.
Recent Searches show details of searches performed in previous 48 hours*

* If you are not logged in, recent searches will be lost after four hours of inactivity or when the browser is closed. **Note**: Recent searches can only be viewed on your own computer/browser.
All searches performed in the previous 48 hours are shown*

* If you are not logged in, recent searches will be lost after four hours of inactivity or when the browser is closed. Note: Recent searches can only be viewed on your own computer/browser.
Click on blue text to see details of the search

You can also save or rerun the search from this page.

This example is from a search done in the Drug Safety module.
Click on blue text to see details of the search

This example is showing 1) a recent Chemistry Structure and 2) Text search.
**Note:** recent searches are not currently available for the new FAERS Summary Table.

A search done in the FAERS Summary Table will not currently appear in ‘Recent Searches’.

It is possible to save a search done using the FAERS Summary Table.
Saved Searches

NOTE: Searches can only be saved/viewed when you are logged in.
Searches can be saved from the Results page or from the Recent Searches page.

In both cases, you will be asked to name the Saved search.
Save an unlimited number of searches

Note:
For searches saved from PharmaPendium modules, click on the blue link(s) to see details of the search.
For saved FAERS searches, to see details of the search click **Rerun** and details will be shown in the Results set.
Expand blue text to see details and delete, rename or rerun search from here
